

More and More Dirt is Piling Up

On July 11, 2017, the earthmover is continuing to pile up more and more dirt as we witness the size that the new Personal Care Home will be. Good thing the playground was moved as today the excavator operator carefully dug in that very area. As I said the other day many curious eyes are watching with fascination.

Even more old cement was added to the cement pile waiting to be hauled away.

It is a very exciting time here on the Mennonite Youth Farm Complex grounds!
