

Lots has been happening

July 27, 2017

Lots has been happening at the Build Site, as well as at our house. Sorry updates haven't been forthcoming lately, so I will post a few today to get you caught up. I will let the pictures speak for themselves. To summarize: lots of dirt has been hauled away from to make room for what's to come. Pictures can't really depict the vastness of it all. As of July 26, all of the major digging and dirt removal has ceased. Mr. "Kobelko's" operator has done an awesome job.

Now the scene will be changing for us "onlookers"!

Even the YFBC Riding Corrals benefit from the excess dirt

July 26, 2017—the Kobelco excavator has left the premises!
