

2018 Begins

January 2 – 4, 2018

Final checks for the big job tomorrow!

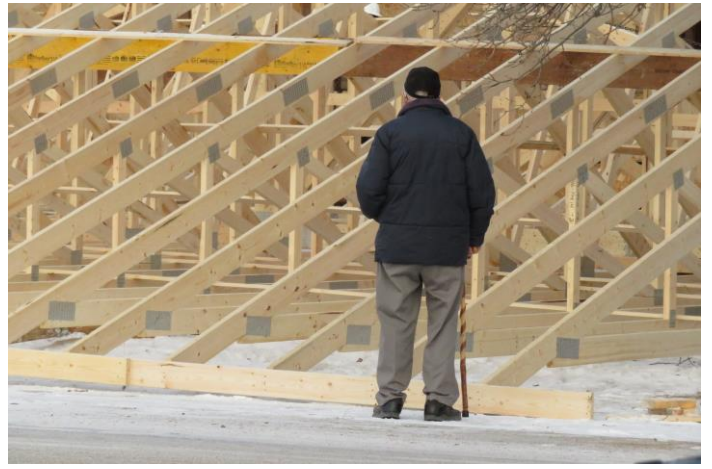

The crane is in place!

The last minute preparations and readiness for the moving of this first section of “roof”

Getting all the chains correctly positioned!

A keen-close eye watching it all!

There goes section #1

Gentle guidance and direction of the massive structure, until safely placed!

Here comes Section #2, as watching from the back side looking south this time.
What a big job on a cold day!

Crane Operator packing up and going home! (The newly placed trusses just at the back of the truck/crane!)
